

Restoration in Christ Ministries

*Empowering Lives Shattered by Abuse
and Training those
Facilitating their Restoration*

Restoration in Christ Ministries (RCM)

was founded as a non-profit organization in 1994.

Our President

Diane W. Hawkins, M.A., became president of Restoration in Christ Ministries in 2011, following the death of her husband, Tom. She holds a B.A. in Medical Technology from Taylor University (1969) and an M.A. in Christian Ministries from Wheaton Graduate School of Theology (1973). Diane was a missionary with TEAM in Zimbabwe for five years prior to marrying Tom in 1977. She served alongside Tom as a pastor's wife and ladies' Bible teacher for 12 years. She was diagnosed with DID/RA in 1987. After years of frustrating experiences in pursuing her healing, Diane joined with Tom in actively seeking healing principles that really worked. What they learned led to Diane's complete integration in 2011. Since then Diane has greatly expanded RCM's educational materials and training opportunities, which are helping survivors gain a whole new level of healing, especially from complex spiritual bondages.

Our Founder

Tom R. Hawkins, Ph.D., was president of Restoration in Christ Ministries from 1994-2010. He was a graduate of Multnomah School of the Bible, Cascade College (B.A. 1965), and Dallas Theological Seminary (Th.M. 1969; Ph.D. 1995). He ministered as a pastor for twenty-five years. From 1990 until his death in 2010, he helped hundreds of sexual and ritual abuse survivors who had developed Dissociative Identity Disorder (DID) as a result. With a Ph.D. in Biblical Studies, he claimed no mental health credentials. However, from 1991 to 1993, he worked closely with mental health professionals in an inpatient, Dissociative Disorders Unit. His approach addressed both the psychological and spiritual dynamics occurring in DID and ritual abuse (RA).

Tom and Diane Hawkins have presented educational seminars around the US and in eight foreign countries.

Our Focus

Dissociative Identity Disorder (DID)

Dissociative Identity Disorder occurs when a child under the age of eight experiences trauma that surpasses his capacity to handle it. At this point his brain is able to utilize a God-designed ability to form alternate identities to handle the trauma so that the primary identities can remain unaware of it and separated from its immediate effects. The disorder is evidenced by a person having two or more distinct identities; each demonstrating a consistent perspective of, and pattern of relating to, self, others, and the environment and recurrently taking executive control of the person's behavior; with some degree of amnesia between some of them.

Otherwise Specified Dissociative Disorder (OSDD)

This lesser state of dissociation produces a subtle separation of the primary self into three pain-buffering, primary identities that usually shift seamlessly among themselves. Additional primary identities serving special purposes and/or internal, trauma-bearing identities that do not take executive control of the body may also be formed.

Ritual Abuse (RA)

This refers to the systematic and deliberate infliction of trauma for the express purpose of causing dissociation, which is exploited for a covert agenda connected to the realm of darkness. It usually involves the use of some form of mind-control programming and varying degrees of spiritual bondage.

New Approaches For Healing

RCM has drawn from personal research, extensive experience in ministering to dissociated trauma survivors, and a deep union with the Holy Spirit to develop ground-breaking treatment strategies that shorten the healing process.

Primary Identity Approach

This approach recognizes the difference between the primary identities, who were overwhelmed and separated from awareness of the trauma, and the alter-identities formed to handle the trauma. It also recognizes intolerable psychological conflicts as the causative dynamic of dissociation. If these conflicts can be identified and resolved in the primary identities, the alter-identities are healed as well and often spontaneously integrated. This makes the healing process for DID much more efficient than the traditional alter-centered approach. When the Original Self, who has the greatest capacity for living life but who is often removed from active participation in it for protection, is able to own the person's entire history without overwhelm, the person will integrate fully and live as the single identity that God originally designed.

RCM Prenatal Healing Process

This process makes use of spiritual discernment to address the emotional wounds, dissociation, and spiritual bondages occurring before birth. In ritual abuse survivors it provides a way to circumvent the many blockages of the cult system and to remove spiritual bondages at their roots, setting many identities free at the same time.

Advanced Spiritual Warfare Renunciations

The agenda of the kingdom of darkness to maintain control over ritual abuse survivors is extremely complex. Gaining complete freedom from it can be a difficult and elusive process. Revelation 12:11 teaches that victory over Satan comes through the blood of the Lamb, the word of our testimony, and not fearing death.

RCM's renunciations provide the specific "word of our testimony" to cover many aspects of spiritual bondage and control used in ritual abuse. Their content, often derived from spiritual discernment, is proving highly effective in providing a degree of spiritual freedom many say they have not experienced before.

Survivors' School of Healing

RCM strongly believes that educated survivors are empowered survivors and much more apt to find healing.

Basic Survivors' School of Healing

The Basic Survivors' School of Healing is designed to guide survivors; accompanied by their counselors, prayer ministers, or support persons; step by step in applying the Primary Identity Approach to healing DID, working through *A Survivor's Workbook*. Videos of ministry sessions are shown to demonstrate many of the principles and applications. Devotions focused on building one's relationship with God are included, along with worship, as we believe this also enhances the healing journey. The Basic School is offered several times a year online.

Advanced Survivors' School of Healing

❖ Part A: Practical Help with Primary Identity Approach

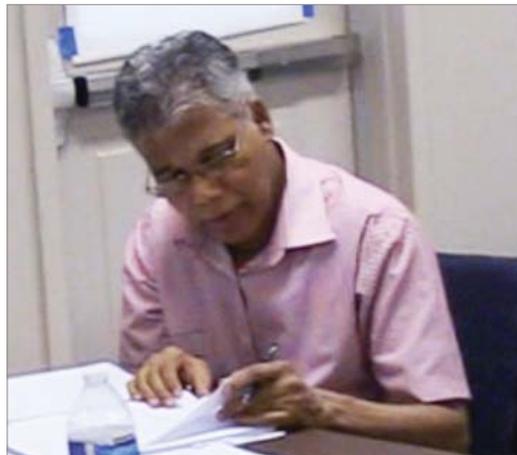

This module offers live, personalized, practical help to assist survivors through their stuck places in applying the Primary Identity Approach to themselves. It is offered online a couple times a year and, if possible, at a yearly in-person retreat center.

❖ Part B: Ritual Abuse

This module provides an opportunity for survivors to gain an overall grasp of the healing process for overcoming ritual abuse dynamics and to ask questions in regard to their own journeys. It is offered online a couple times a year and yearly, if possible, at an in-person retreat center.

- The in-person school offers a unique opportunity for fellowship and learning.
- Survivors attend with a support person.
- Scholarship help is available.

Join us for this wonderful opportunity for education, fellowship, and healing.
